EPOS Enterprise Solutions

Headsets & Meeting Solutions

Optimized for Unified Communications

Unified Communications

Moving towards a UC environment

A Unified Communications solution does precisely what it says: It brings together a company's voice, text and video based communication under one unified solution.

The advantages of a Unified Communications solution include enhanced overall efficiency of a business through increased productivity and mobility, resulting in a positive return on investment. The ability to view colleagues' availability status and send instant messages, reduces unnecessary emails and missed calls to an absolute minimum.

Whether in the office, at a meeting, traveling, or working from home, EPOS offers a comprehensive range of quality wired and wireless headsets and speakerphones to enhance your Unified Communications experience and helping you to stay in touch.

The human voice is still at the heart of all Unified Communications systems. It's the swiftest and most effective way of delivering and receiving important information. A EPOS headset for Unified Communications is designed to work seamlessly with major UC platforms and completes the solution with the best possible sound for both user and listener – ensuring your message always gets across clearly.

Our partnerships

EPOS works with strategic alliance partners to ensure that our products and speakerphones are easy to deploy and are fully compatible with all major Unified Communications platforms and desk phones. Our headsets are designed to maximize the performance of your chosen communications solution by seamlessly delivering the ultimate in sound and design quality and productivity enhancing features.

EPOS headsets and speakerphones are thoroughly tested with our partners for compatibility and optimal acoustic performance. Based on the test results, our products are certified by our partners.

Every word matters

Even in the busiest working environments, clearly understandable conversations are an absolute must for today's business communications. However, perfect speech intelligibility is only one part of enabling you and your listener to stay focused on your tasks. Also, the usability of your device has a strong impact on your performance in every day's business.

EPOS headsets deliver unparalleled sound, and also best-in-class ease of use. Combined with the high-grade design, they make a real difference in business communications.

With the right choice of materials and exceptional craftsmanship, every EPOS headset is built to last. Giving you a highly comfortable wearing experience that will improve the quality of your working day and boost your productivity.

EPOS Wireless DECT Series

Experience the quality of freedom

For modern business professionals, the advantages of a wireless headset solution are obvious: They are no longer tied to their desks and conversations on the go keep business moving. Hands-free calling, and the ability to set up ad hoc meetings on the fly can boost job satisfaction while improving a company's overall efficiency.

A EPOS DECT solution offers the possibility of connecting to up to three communication devices simultaneously, and a wide range of wearing styles to suit all individual preferences and work situations. Designed for maximum flexibility, comfort and efficiency, they are ideal for fatigue-free, all day use in a wide variety of modern office environments.

ADAPT 100 Series

- ADAPT 100 Series are wired headsets for UC professionals who value device flexibility, great sound, discreet modern style and comfort.
- Optimized for all major UC and phone solutions
- Great sound for calls and multimedia
- Connectivity via 3.5 mm jack, USB or USB-C
- Choice between single-sided or double-sided variants

EXPAND Video Conferencing

Video for Today's Smart Office

In today's working world video conferencing is becoming increasingly essential. High quality video conferencing solutions enrich the virtual meeting space replacing the need for expensive, unsustainable travel with an excellent alternative to face-to-face meetings. Seeing a clear image of your remote counterpart boosts the productivity of your meeting with all the nuances of expressions and body language.

Our EXPAND Line video conferencing solutions offer an unrivalled meeting experience with full HD video, exceptional voice pickup and noise cancellation – powered by EPOS AI™. These simple, all-in-one solutions work at the touch of a button, providing all you need in one device to make your meeting room a hub of productivity. With such reliability installed in your workplace you can feel as connected to your remote colleagues as if being in the meeting room together.

We call it – video collaboration reinvented.

EXPAND Video Conferencing
