

Maximize Your Security

IBM Security QRadar SIEM

The appearance of U.S. Department of Defense (DoD) visual information does not imply or constitute DoD endorsement.

The challenge

Cybersecurity threats have become more advanced and persistent, requiring proactive security to protect your data. But with a major security skills shortage, empowering your security team can be difficult.

Our solution

IBM Security® QRadar® Security Information and Event Management (SIEM), available from Insight Public Sector, enables security teams to face threats proactively and accurately.

Maximize analyst time and talent.

Accelerate threat detection and response.

Reduce operational complexity.

Times have changed

SIEMs were previously only used for large organizations, but Security QRadar SIEM is a more progressive solution designed for all.

Benefits

- Reduce alert fatigue
- Get prioritized, high-fidelity alerts for specific risks
- Deploy easily and begin use on day 1
- Expect predictable and straightforward pricing

Our Partner

An Industry Leader

For the 13th consecutive year, IBM Security QRadar SIEM has been recognized by Gartner® Magic Quadrant™. And according to a Forrester Consulting study, there was an ROI of 239% and a <6 month payback.

14,000+

Analysts saved more than 14,000 hours over 3 years on identifying false positives*

90%+
