

# The New Era of Real-World Business Computing is Here

Professionals expecting the very best from their technology turn to Lenovo devices. Built for what IT needs and users want, Lenovo devices offer more than innovation and style—they offer ultimate real-world business computing power for a secure and smooth experience.

An Evo Design

ThinkPad X1 Carbon

## World-class tech meets real-world performance

Sleek and reliable ThinkPad® X1 laptops—powered by Intel vPro®, an Evo Design, with 13th Gen Intel® Core™ processors—bring enterprise-class **performance, security, stability, and manageability** to organizations of all sizes.

**Optimize workloads** with enhanced hybrid core architecture, featuring a new Performance core (P-core) design for up to 10% better application performance.\*

**Boost performance and reliability** with business WiFi's biggest advancement in 20 years—WiFi 6E—designed to bust through congestion and interference so workers can tackle their day.

**Count on stability** with Intel® Thread Director, which allocates the right thread to the right core at the right time to ensure maximum performance.

**Streamline work across operating systems** with Intel® Unison™, which seamlessly connects your laptop to your choice of smartphone for a universal, easy-to-use experience.<sup>1</sup>

**Protect what matters most** with Lenovo ThinkShield and Intel® Hardware Shield, engineered for ultimate defense against the latest security threats.

**Power energy efficiency** with the unique ThinkPad keyboard airflow and rear venting design, paired with Intel® Dynamic Tuning Technology to enhance battery life and user experience.

**Deploy optimal hardware** for Windows 11 and guarantee reliable upgrades with the combined power of Lenovo and the proven Intel vPro® platform.

**Ensure consistent performance** in the office or on the go with Lenovo devices tested for durability and powered by 13th Gen Intel® Core™ processors for superior Thunderbolt™ 4 connectivity.

\* Performance expectation with final test results pending

1. Intel® Unison™ solution is currently only available on eligible Intel® Evo™ designs on Windows-based PCs powered by 12th Gen Intel Core or newer CPU and only pairs with Android- or iOS-based phones; all devices must run a supported OS version. See [intel.com/performance-evo](https://intel.com/performance-evo) for details, including set-up requirements. Results may vary.

# Windows 11

## Modern device management made easy

Lenovo has the most comprehensive business portfolio. This ensures that they can meet businesses right where they are to fit their unique needs for security and manageability. Lenovo notebooks like the ThinkBook 14 and 15 Gen 5 *i* offer vPro Essentials for the needs of your small business. Lenovo ThinkPad devices engineered on the Intel vPro® platform are built to meet the needs of modern businesses regardless of size and how their office evolves. And with the latest 13th Gen Intel® Core™ processors powering these devices, they offer a strong foundation for real-world business computing while making device management easier than ever.

**Intel vPro® Enterprise**, designed for larger companies, empowers better fleet control with **Intel® Active Management Technology**, which provides an experience as if a technician were standing in front of the actual downed PC—regardless of power state or OS function.

- Simplify device sanitization with Intel® Remote Platform Erase, which allows IT to securely wipe an entire device from anywhere.
- Resolve catastrophic PC failures remotely and securely in minutes with Intel® One-Click Recovery.
- Extend device life cycles with durable ThinkPad® devices powered by integrated, professional-grade Intel® vPro components.

**Intel vPro® Essentials**, designed for smaller businesses, makes it easy for IT teams to efficiently provision and maintain PCs via the cloud, no matter where end users are working, with Intel® **Endpoint Management Assistant**.

- Support users and access devices from anywhere with global reach and cloud capabilities.
- Deliver enterprise-class device sanitization via user command with Intel® Local Platform Erase.
- Track the health of a PC through its entire life cycle with Intel® Platform Service Record, designed to support device management decisions.

## Redefine business with Lenovo and Intel

Lenovo laptops powered by Intel vPro® excel at real-world business computing and give all professionals the power to redefine what business devices can do.
