

ViewBoard®

INTERACTIVE FLAT PANEL DISPLAYS

CONNECT. COLLABORATE. CREATE.

The ViewSonic® ViewBoard® IFP50 series of interactive displays enable limitless collaboration and endless creativity.

Designed to help classrooms connect, collaborate, and create, the IFP50 series digital whiteboard delivers exactly what you need to drive engagement, energize and motivate students, and make teaching more fun.

Thanks to ultra fine touch technology ViewBoard interactive displays deliver an ultra-smooth, natural handwriting experience. With ultra fine 4K resolution, upgradeable slot-in PC options, and secure myViewBoard™ software, these interactive displays offer a customizable, secure, and future-proof whiteboarding solution for any classroom or huddle space.

ViewSonic myViewBoard™ software is a powerful tool that enables teachers to build dynamic lesson plans, import engaging content, and share lessons with students – all with one easy click.

Whether yours is a Windows, Android, or Chrome environment, myViewBoard works well with existing technology and seamlessly integrates into nearly any classroom.

Google for Education

myViewBoard Classroom

A dynamic platform that offers educators easy access to their tools, assignments, courses, and documents in one place, with the added bonus of having an open, agnostic, and secure digital whiteboard at their fingertips.

Cloud-based portability

Store documents and images directly onto a shared cloud drive such as Google Drive, OneDrive, Dropbox, and Box. Because they're in the cloud, your files are just one touch away and can be accessed, retrieved, and saved wherever you go.

myViewBoard Quickboard

A convenient, browser-based whiteboarding canvas that transforms any classroom into a real-time collaborative environment. Because it is browser-based, Quickboard enables participants to login and collaborate in real time from any location.

ViewBoard CAST

ViewBoard Cast enables content streaming from mobile devices onto a ViewSonic display over wireless or cable networks.

Wirelessly share content from mobile devices

With a single click, wirelessly stream content from Windows, Mac, iOS, Android, and Chromecast devices onto a ViewSonic display. Instant streaming means no valuable meeting time or class time is wasted.

Multi-screen sharing

Up to four users can simultaneously annotate content (such as documents, cloud files, multimedia, etc.) on their devices in real time. That content can then be streamed and shared onto the ViewBoard display via four split screens.

Remote touch control

A host can remotely access and control a presenter's Windows or Mac device via touch control on the ViewBoard display. Touch annotations on the ViewBoard display will then appear on the controlled device.

ViewBoard ACCESSORIES

With a few simple add-ons,
your ViewBoard display can become
the ultimate integrated solution.

Mobile mounting options

VB-STND-001, VB-STND-002, VB-STND-003, VB-STND-005

Sturdy rolling carts with UL and ADA compliance for safety and accessibility. Select models include motorized lift and tilt features.

Fixed mounting options

WMK-047-2, VB-STND-004

Easy-to-install fixed wall mounts and floor stands with UL and ADA compliance for safety and accessibility.

Slot-in PCs

VPC Series

Provides additional computing power, touch functionality, and storage.

Chromebox

NMP660

Delivers a familiar, easy-to-use Google interface for creating, saving, and sharing content

Wireless Internet Module

LB-WIFI-001

Delivers faster Wi-Fi and support for Bluetooth 4.0

HD Webcam

VB-CAM-001

1080p ultra-wide USB camera with built-in microphone.

Wireless Compact Keyboard

VB-WKB-001

Handheld QWERTY keyboard with touchpad and quick access keys
